

DSW

DSW.com

Dear Valued DSW Vendors,

We are asking all of our vendors to please review their EDI system for sending ASNs, and be sure that they are sending the correct ship to IDs. If a vendor sends an ASN with incorrect ship to IDs in the N104 element of ASNs (856s) sent to DSW, this will cause the processing of the ASN to fail. We must manually correct the ship to IDs when necessary on the ASNs which may result in a Vendor Chargeback.

Here is a listing of all DSW business units, and their corresponding ship to ID and physical address...

Business Unit	Business Unit Name	Ship To ID	Physical Address
29	DSW Shoe Warehouse	99999	4150 E Fifth Avenue, Columbus, OH 43219
58	DSW Direct (E-tail)	99985	32 Springside Road Westampton, NJ 08060

The correct ship to ID will be in the N104 of the 850/860, please be sure that the ship to ID sent in the N104 of the 856 matches what was sent on the PO.

If you are sending ASNs for both our e-tail (business unit 58) and store business (business unit 29) under the same ISA (all in one EDI file), it is best practice to separate all business unit 58 (e-tail) POs, putting them under their own ASN ID (have a separate ST loop for the business unit 58 POs).

You can review our 856 specs by clicking on the following link...
